

Polycom® Conference Phones

The right solution for any business communication need

Your conference room phone is one of your most valuable assets to help you collaborate with others. And regardless of the size of your conference room, calls are productive and efficient when participants on all points of the call can hear clear, crisp voice quality – even during simultaneous conversations. With Polycom's patented Acoustic Clarity Technology, your conversations flow naturally and get everyone talking.

From desktop to large integrated auditorium systems, from analog to digital to IP networks with multiple protocols, or from wired to wireless, Polycom has the right voice solution to enhance any business communication need. Why waste time and money or even lose business due to poor phone technology when you could conference with confidence using a Polycom conference phone?

Polycom – The Market Leader Worldwide

Polycom has been the worldwide conference phone market leader since 1992. We redefined voice conferencing with the revolutionary SoundStation VTX 1000™, and we have done it again with the new wireless SoundStation2W™.

The SoundStation VTX 1000 is the world's first conference phone that automatically adapts to each meeting environment, providing high fidelity voice clarity for all participants whether they're two feet or 20 feet away from the microphone. And, as the world's first wideband conference phone, the SoundStation VTX 1000 delivers twice the bandwidth as conventional telephones for lifelike clarity.

The wireless SoundStation2W offers better voice quality than the original SoundStation with the freedom of wireless. Now you can conference anywhere team collaboration is important – even in rooms where there are no phone lines, without sacrificing audio quality. Plus, it offers powerful features like voice encryption, up to 24 hours of

talk time and the ability to dial through a cell phone for flexibility in situations where hard-wired phone lines aren't an option.

Best-in-class choices for conferencing any way you want

With integrated video, voice, data, and Web capabilities, Polycom offers the only solutions that gives you an easy way to connect, conference, and collaborate any way you want. It's our commitment to making distance communications as natural and interactive as being there. Work faster, smarter, and better with Polycom voice products and Polycom conferencing and collaboration solutions.

For unsurpassed voice clarity, conferencing freedom and increased productivity in your conference rooms, offices or anywhere, there's only one clear choice: Polycom.
